Danny Brown of Prudential California Realty, John Aaroe Division, recommends 9892 Beverly Grove ...

The famous Roth House by Case Study architects Buff, Straub and Hensman has been expanded with a two-story addition and completely renovated for glamour and impact by celebrated architect David Hertz and designer Billy Lehman. On its own promontory above the Beverly Hills Hotel, the property commands astounding views from downtown to the ocean. Square footage includes a media room with full bath, two guest bedrooms, a master suite occupying the entire second floor and an outdoor room above the master with jetliner views in all directions. Grounds feature a spectacular pool, an inviting fire pit, sculptural water elements and richly landscaped garden areas. Extensively documented by architectural photography legend Julius Shulman and widely published in books and magazines, the Roth House was awarded the prestigious "Award of Merit" by the National Chapter of the American Institute of Architects (AIA).
